

Buildings need good foundations to stop them falling down. People need good foundations to stop their lives being destroyed.

A building needs to be on top of strong foundations. A good foundation for a building is rock. A bad foundation would be sand.

What's a good foundation for a person? Jesus knows the answer to this question.

One day, he told his friends a story. 'Not everyone who appears to be good will get into heaven. Only he who does the will of my Father will get to heaven.'

Everyone who hears my words and does them, is like a wise man who built his house on rock. When the storms came, that house did not fall.
